

I am strongly opposed to rulings which would allow further undermining of the free press (including airwaves). Democracy has always depended in a free and dynamic exchange of ideas and information. Six multi-media conglomerates (or fewer) will not allow that exchange to continue. Indeed, the American people will only see and hear that which is in the interest of these giant corporations for us to see and hear. Keep democracy strong. Don't let corporations be the disseminators of fact and opinion!

Sincerely,

Patricia Hval
